You are in BRC early to build the infrastructure of our city. Drive slowly and safely only on BRC roads. Doing so helps define them. Do not drive behind the road-watering trucks, this damages roads. Do not move any survey flags. If you are camping in an unreserved area, use only the space that you need, do not mark out a larger area. If you have any questions on Playa, rest assured that someone with a radio can guide you to the answer. If you are not working, expect to be recruited.
